WRNS STUDIO

Summer 2025 Internship Program

WRNS Studio's team of architects and interior designers works collaboratively across offices in San Francisco, Seattle, Honolulu, and New York. We partner with today's most transformative organizations to elevate their missions through exceptional architecture and interior design. Our portfolio spans workplace, education, science, health, housing, civic, hospitality, transportation and adaptive reuse. WRNS Studio has been honored with awards by Architect's Newspaper, Fast Company, AIA, and consistently earns a top ten spot in Architect magazine's annual ranking of firms across business, sustainability, and design, including the #1 spots in 2018 and 2013. Our immersive Summer Internship Program includes design research and presentations, round table discussions, construction site visits, staff mentorship, project experience and engagement, and various educational events. Our 2025 Internship will be in-person, primarily in our San Francisco office, with potential openings in our Seattle and New York offices.

2023 Intern Research Project

This is a paid internship - we believe in compensating our staff!
